And so, and so, and so
for 3 bass tubas

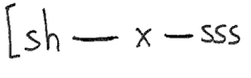
Program Notes

And so, and so, and so was written in gratitude and friendship for three tubists that all happen to be based in Wisconsin: Dr. Daniel Rowland of the University of Wisconsin-Platteville, Dr. Jacob Grewe of the University of Wisconsin-Eau Claire, and Dr. Tom Curry of the University of Wisconsin-Madison. This work was written asynchronously, in that each part was written separately from one another. It wasn't my intention to do so when I began this work, but I have a feeling that the often asynchronous and unmoored times in which we happen to live had a hand in pushing it towards that mode of composition.

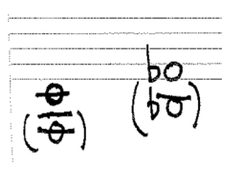
Performance Notes

Press the valve indicated.

= Filled circle equals maximum activation
Partial circles equal half presses



= Create the indicated consonant or vowel sound through the instrument



= Split Tones.
= Bottom note is the one being "split".

= Interpret the given shape however you see fit

And so, and so, and so
